

**Affiliate process** and the **commission structure**, which you can include in your **Terms & Conditions** for affiliate policy document

## **Affiliate Program Overview**

The affiliate program allows individuals or businesses (“affiliates”) to promote the company’s products or services and earn a commission for each successful referral. A successful referral is when a customer makes a valid purchase through the affiliate’s unique referral link.

## **Step-by-Step Affiliate Process**

### **1. Application Submission**

- The interested user submits an affiliate application through the company’s website or portal.
- The application typically includes basic information like name, email, mobile number, business type, and promotional methods.

### **2. Application Review**

- The company reviews the application within **3–5 business days** to ensure the applicant meets eligibility and marketing standards.
- Once approved, the affiliate receives a confirmation email with a **unique referral link and unique affiliate ID**.

### **3. Promotion and Marketing**

- The affiliate uses their unique link to promote Power CA Software product through approved channels — such as websites, blogs, emails, or social media.
- Affiliates must **follow the company’s marketing guidelines**, avoiding spam, misleading claims, or brand misuse.

### **4. Tracking and Conversion**

- When a customer clicks the affiliate’s link and completes a purchase, the system automatically records that sale under the affiliate’s account.
- Tracking cookies (usually valid for 30–90 days) ensure the affiliate receives credit for the referral.

## 5. Commission Calculation

- Affiliates earn a **10% commission** on every successful sale made through their link.
- The commission is calculated based on the **net sale amount** (excluding taxes, discounts, or refunds).

## 6. Payment Schedule

- Commissions are **paid monthly**, typically within the first week of the following month.
- Payments are made via **bank transfer** or other approved methods.
- A minimum payout threshold (e.g., ₹500 or \$50) may apply.

## 7. Policy Compliance

- Affiliates must adhere to all **marketing and ethical guidelines**.
- The company reserves the right to **suspend or terminate** affiliate accounts found engaging in fraudulent, misleading, or non-compliant activities.

## 8. Termination of Affiliate Status

- Affiliate status may be terminated due to policy violations, inactivity, or misuse of the brand name.
- Any unpaid commissions for invalid or fraudulent referrals will be forfeited.
